

EXPLANATION FOR THE BAPTISMS TABLE

These were transcribed from the original parish registers of St Michael's and All Angels, Marden. But we also have some from the Dissenting Church in Marden; now known as the Congregational Church. Sometimes they are replicated in St Michael's register as well. There have been other chapels in Marden but we have not found access to their records yet.

To view the Baptisms point to TABLES and click BAPTISMS.

The database will appear as a series of records. An asterisk in each of the green column headings denote whether that field is searchable, and clicking on each one arranges contents ascending or descending - signified by an upward or downward pointing triangle respectively.

The Search Bar will accept any names, dates or terms and has options for entering multiple terms. The page selection buttons will move through pages of batched records - one page up or down, or to the beginning and end of the whole database or selection. There are also options to export data to Word or Excel files.

A copy of the original entry from the Parish Register may be purchased from us. From the Home page point to **Shop**, click on **Research**, find **Page from Parish Register** in the list there and order which entry you want. Use our website address to order one.

To view an individual record, click the magnifying glass button on the extreme right hand side of each one. 🔍

The column names of a record's table are:

- Column 1 - **Ref. No.(*)** - our reference number.
